

LIRNEasia @ five:
research --> policy --> knowledge-based economies

Speaker bio: Puree Sirasontorn, PhD

Sirasontorn, Puree, PhD, is an Assistant Professor at the Faculty of Economics, Thammasat University in Thailand. She leads the 'Business Models for Delivering Mobile Value-added Services: Thailand' research component of the Mobile 2.0 study, at LIRNEasia. Sirasontorn holds a PhD in economics from the Australian National University. Her research interests include economics of regulation, industrial organization, energy economics and ICT and telecommunication economics. Her experiences in the energy policy and regulatory field have been extensive, and have included research projects of energy tariff regulation in Thailand, implication of Energy Industry Act for the Thai energy sector and Thai economic measures and policy on energy crisis. She also advises the Energy Regulatory Board of Thailand on electricity tariff regulation. Sirasontorn serves as referee in various journals such as Regulation & Governance, the International Energy Journal and the Thammasat Economic Journal and occasionally writes a newspaper column on infrastructural reform and regulation.
