

LIRNEasia @ five:
research --> policy --> knowledge-based economies

Speaker bio: *Christoph Stork, PhD*

Stork, Christoph, PhD, is a Senior Researcher at Research ICT Africa (RIA), LIRNEasia's sister organization. Stork is a consultant to LIRNEasia's Teleuse@BOP3 project. His main research interest is in measuring the impact of ICTs on economic growth, employment creation and poverty alleviation. At RIA, he conducts quantitative and qualitative research across seventeen African countries including household and small business surveys. He regularly interacts with senior policymakers and regulators, providing data, analysis and advice for evidence-based policymaking and regulation.
